

PROTECTING YOUR EMPLOYEES, CUSTOMERS & PROPERTY FROM FENTANYL EXPOSURE

PROTECTING YOUR EMPLOYEES, CUSTOMERS AND PROPERTY FROM FENTANYL EXPOSURE

Empowers Manitoba businesses with education to handle possible exposure to fentanyl, what fentanyl looks like and the statistics on how potentially dangerous the drug is to you, your staff, and your customers.

This comprehensive training program was developed by MTEC in partnership with the Winnipeg Police Service (WPS) and will be delivered by a Hospitality Security Consultant who previously worked 22 years for the WPS.

This training will include how to handle possible exposure to fentanyl, what fentanyl looks like and the statistics on how deadly it is. The course also explains how dangerous the drug is to you, your staff, and your customers.

Also included in the training is Employers Duty of Care, personal decontamination, and who cleans up the guest room, washroom or staircase where fentanyl has been used.
